

Change is coming, **ARE YOU READY?**

Do you understand the implications of the increase in National Insurance contributions to your finances?

The important news

From 6 April 2022, **National Insurance** contributions will increase by 1.25%. This extra tax will be spent on health and social care in the UK.

In addition, there are also increases coming to the **National Minimum Wage**.

So, what might this look like for you and what sort of difference will this make to your wage slips?
